

## ALB129 Series

Compact 400W Ku-Band Block-Up Converter

This small and lightweight BUC is ideal for mobile and satellite uplink applications.

The BUC has "Best in Class" efficiency and "lowest power consumption." The unit works on a wide range AC power supply of 96VAC to 264VAC. Innovative and efficient thermal design makes this BUC one of the smallest, robust, reliable and rugged enough to withstand outdoor conditions in the industry.

Built-in redundancy feature eliminates the use of an external controller for 1:1 redundancy operation. This eliminates messy cabling at the antenna making this a very elegant solution.

Extensive M/C interface with RS232/RS485/Ethernet (SNMP & HTTP) and Wifi.

### Features

- · Available in standard and extended Ku-Band
- · Forward & reverse power detection
- Input power detection
- Intuitive monitoring & control through RS232/RS485 & Ethernet (SNMP & HTTP) and Wifi
- · Automatic fault identification & alarm generation
- · Temperature compensation facility
- Built-in redundancy facility
- · Built-in 10MHz reference with auto-detection
- Built-in receive reject filter
- · Sample port for output monitoring
- Wide operating temperature range -40°C to +60°C
- RoHS Compliant
- Waterproof

### **Quality Assurance**

100% of all BUCs go through stringent quality checks in addition to well defined Electrical Stress Screening to ensure operation in harsh outdoor environments. The BUCs are also subjected to seal test for water ingress verification.

### Reliability

Field proven under harsh environment conditions, Agilis ODUs can withstand temperature ranging from -40°C to +60°C with up to 100% humidity.

### **Technical Specifications**

**RF** Specifications

### Monitor And Control

Transmit Frequency	14.0GHz – 14.5GHz	Monitor	BUC temperature
	13.75GHz – 14.5GHz		Status alarm
IF Frequency Range	950MHz – 1450MHz		Output power
	950MHz – 1700MHz		Reverse power Input power
LO Frequency	13.05GHz		LED status indication
	12.80GHz		
Output Power (P1dB)	56dBm	Control	Attenuation
Spectral Re-growth	30dBc @ P1dB		RF output mute
	-25dBc @ Relative to combine power of two		
	carrier at 3dB total power backoff from P1dB	Interface	RS232/RS485 & Ethernet (SNMP & HTTP) Wifi (Optional)
Small Signal Gain		Tx Redundancy	Built-in
400W	80dB Min		
Gain Flatness Full Band	±2dB	Environmontal	
Gain Slope over 40MHz	±1dB	Environmental	
Gain Variation over temperature	±2dB @ from -40°C to +60°C	Operating Temperature	10%C to 160%C
Gain Control	20dB in step of 0.5dB	Operating Temperature	-40°C to +60°C
O/P spurious	According to EN301428	Humidity	Up to 100%
Phase Noise @ Offset		inannanty	Weather protection sealed to IP65
1KHz	-75dBc/Hz		
10KHz	-85dBc/Hz	Mechanical	
100KHz	-95dBc/Hz		
I/P VSWR	1.3:1	Size	550L x 440W x 350H mm
O/P VSWR	1.25:1		( x 2 units in phase combined design)
Noise Power Density Tx BD	70dBW/4KHz	147.1.1.1	501-
Rx BD	142dBW/4KHz	Weight	50kg ( x 2 units in phase combined design)
